Welcome to

LiteracyPlanet & WordFlyers

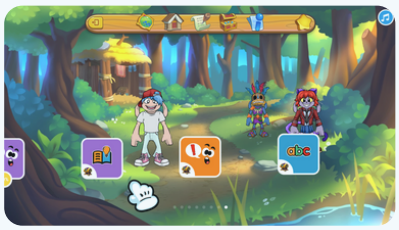
LiteracyPlanet in Secondary School

Comprehensive coverage of the key literacy strands enables teachers to choose specific content to assign to students and then assess and report on proficiency. Carefully crafted to align with the curriculum, appropriately scaffolded, and—most importantly for students—fun, LiteracyPlanet empowers you to teach targeted literacy skills through thousands of engaging activities across various strands.

Secondary Literacy

Specialised Vocabulary:	words or word groups that are specific to a field or subject area and when to use them.
Language Conventions:	how words, grammar and punctuation are used to communicate information and ideas.
Reading Comprehension:	understanding a variety of comprehension strategies, from clarifying and summarising to analysing and inferring.
Media Literacy:	identifying how the media in all formats use techniques to manipulate the audience.
Critical Thinking:	evaluating facts, evidence, detailed arguments to form a judgment and problem solve.

How LP does it



LiteracyPlanet's Spelling, Grammar, and Comprehension program engages secondary students with high-interest texts and meaningful activities that expand their vocabulary, strengthen key literacy skills, and foster critical thinking.

Teachers can choose to assign engaging, differentiated learning experiences that strengthen students' foundational knowledge across each literacy strand. LiteracyPlanet activities also extend students' skills to advanced and higher levels of achievement.

LiteracyPlanet

Accessing Content

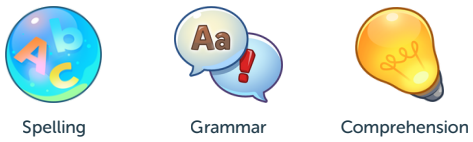
Using LiteracyPlanet in Secondary Schools

LiteracyPlanet gives secondary teachers the flexibility to personalise learning for every student. Using the 'Assign a Task' feature, teachers can easily allocate differentiated literacy activities to individuals, small groups, or the whole class. Students can also progress through content at their own pace with our program-led Journey feature.

How to use 'Assign a Task'

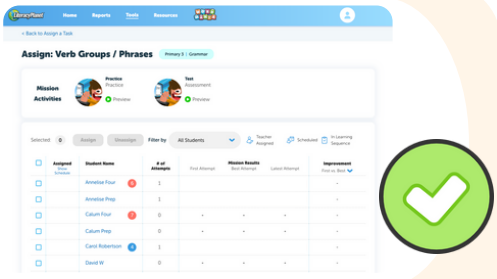
1 Select Content

Choose a strand of literacy and year level (7-10) to find and select a task.



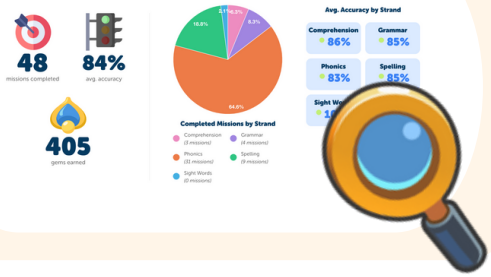
2 Assign Content

Assign the task to one or more students in your group or class.



3 View Student Results

View student results and reports to identify their learning needs.



Coming Soon!

Secondary students will soon be able to personalise their experience with a more mature look and feel. Also, the new 'Academy' feature will allow them to explore and engage with content of their choice—giving them greater independence and ownership of their learning and fostering a lifelong love of literacy.

LiteracyPlanet

Spelling & Vocabulary

At LiteracyPlanet, we understand that spelling and vocabulary knowledge is fundamental to student success in both reading and writing. Knowing how to spell a word and understand its meaning in context is key to literacy development. Strong spelling and vocabulary skills enable secondary students to express their ideas clearly, comprehend complex texts, and engage confidently in a wide range of academic tasks.

Levels of Word Study

Phonological Level	Focuses on the sounds (phonemes) in words and the letters or letter groups (graphemes) that represent them. Example: /j/ /e/ /t/ in jet.
Morphological Level	Focuses on the meaningful parts of words, such as roots, prefixes, and suffixes. Example: unhappy = un- (prefix) + happy (root).
Lexicological Level	Focuses on word meaning, usage, and relationships, including etymological origins. Example: biology (from Greek bios = life + logos = study).

How LP does it

To help secondary students master all three levels of word study—phonological, morphological, and lexocological—LiteracyPlanet combines explicit instruction with interactive, gamified activities and questions that provide repeated practice, reinforce key concepts, and keep learning engaging and effective.

LiteracyPlanet helps students develop advanced spelling and vocabulary skills through activities that analyse and sort words by patterns, roots, and origins. Students practise accurate spelling and word building, identify and correct errors in complex sentences, and use words in context. Gamified activities reinforce skills while keeping learning engaging.

LiteracyPlanet

Comprehension

LiteracyPlanet provides explicit instruction across three key levels of comprehension. Focusing on each level helps secondary students develop strong text-understanding skills, while improving their ability to identify facts, draw inferences, and assess the author's purpose and techniques across a range of reading contexts.

Levels of Comprehension

Literal Level	Focuses on understanding explicit information directly stated in the text.
Inferential Level	Focuses on understanding implied meanings and drawing conclusions not directly stated.
Evaluative Level	Focuses on critiquing and forming judgments about the text, its ideas, or the author's intent.

How LP does it

To help secondary students understand each text at all three levels of comprehension, every text includes literal, inferential and evaluative questions. These questions are designed to develop students' comprehension and critical thinking skills.

Questions target a wide range of comprehension strategies, including inferring, summarising, evaluating, and making connections. The focus strategy is clearly displayed for every question. Strategy guidance helps students build and strengthen their comprehension skills and develop confidence in understanding and analysing texts.

Grammar & Punctuation

Grammar is the system and structure of a language, including the rules that govern how words are formed, combined into sentences, and used to convey meaning. Mastering grammar helps secondary students construct well-formed sentences, convey meaning accurately, and adapt their language for different audiences and purposes. Strong grammar skills also support reading comprehension, critical thinking, and success across all academic subjects.

Levels of Grammar

Word Level

Focuses on individual words and their roles, including parts of speech, spelling patterns, and word forms.

Sentence Level

Focuses on how words are combined to form meaningful sentences, including structure, agreement, and punctuation.

Text Level

Focuses on how sentences work together to create coherent meaning, including paragraphing, cohesion, and style.

How LP does it

LiteracyPlanet's grammar program provides explicit, structured instruction to help students understand how language works at the word, sentence, and text levels. Through targeted lessons and interactive activities, students develop essential skills enabling them to write clearly, accurately, and confidently across a variety of contexts.

Interactive activities and questions include identifying grammar features, correcting and editing grammatical errors, constructing sentences, and exploring how language choices affect meaning and tone. Students also practise adapting grammar for different audiences and purposes, helping them write with accuracy, confidence, and style.

WordFlyers

Content Coverage

WordFlyers in Secondary School

Created for students in Years 7 to 10, WordFlyers contains over 1500 literacy actvities consisting of engaging, real-world texts that each form the foundation of a unit of lessons. Students are immersed in meaningful language learning through tutorials and practice activities designed to teach and strengthen writing, vocabulary, spelling, comprehension, grammar, and punctuation.

How WF does it

1. **Reading Texts** — 128 texts span imaginative, informative, and persuasive types, presented through diverse forms such as short stories, web articles, and online discussions.
2. **Tutorials** — Every lesson begins with a short, 'bite-sized' tutorial that students can read, watch, or listen to.
3. **Comprehension** — Students learn to apply effective reading strategies, identify purpose and audience, and interpret texts at literal and inferential levels.
4. **Spelling & Vocab** — Key skills are developed through real-world reading and writing contexts, building graphophonic, morphological, and etymological strategies.
5. **Grammar** — Explicit instruction explains how grammatical elements shape meaning, deepening student knowledge of how language works and key terminology.
6. **Punctuation** — Emphasis is placed on punctuation as a tool for clarity, covering a range from basic to advanced forms.
7. **Writing** — Interactive digital activities help students master the language features and structure of each of the 10 text types covered.
8. **Interactive PDFs** — Interactive PDFs pair with learning activities to build students' confidence and writing proficiency.
